

Average Rank Across All Rounds (lower is better) — Top 30

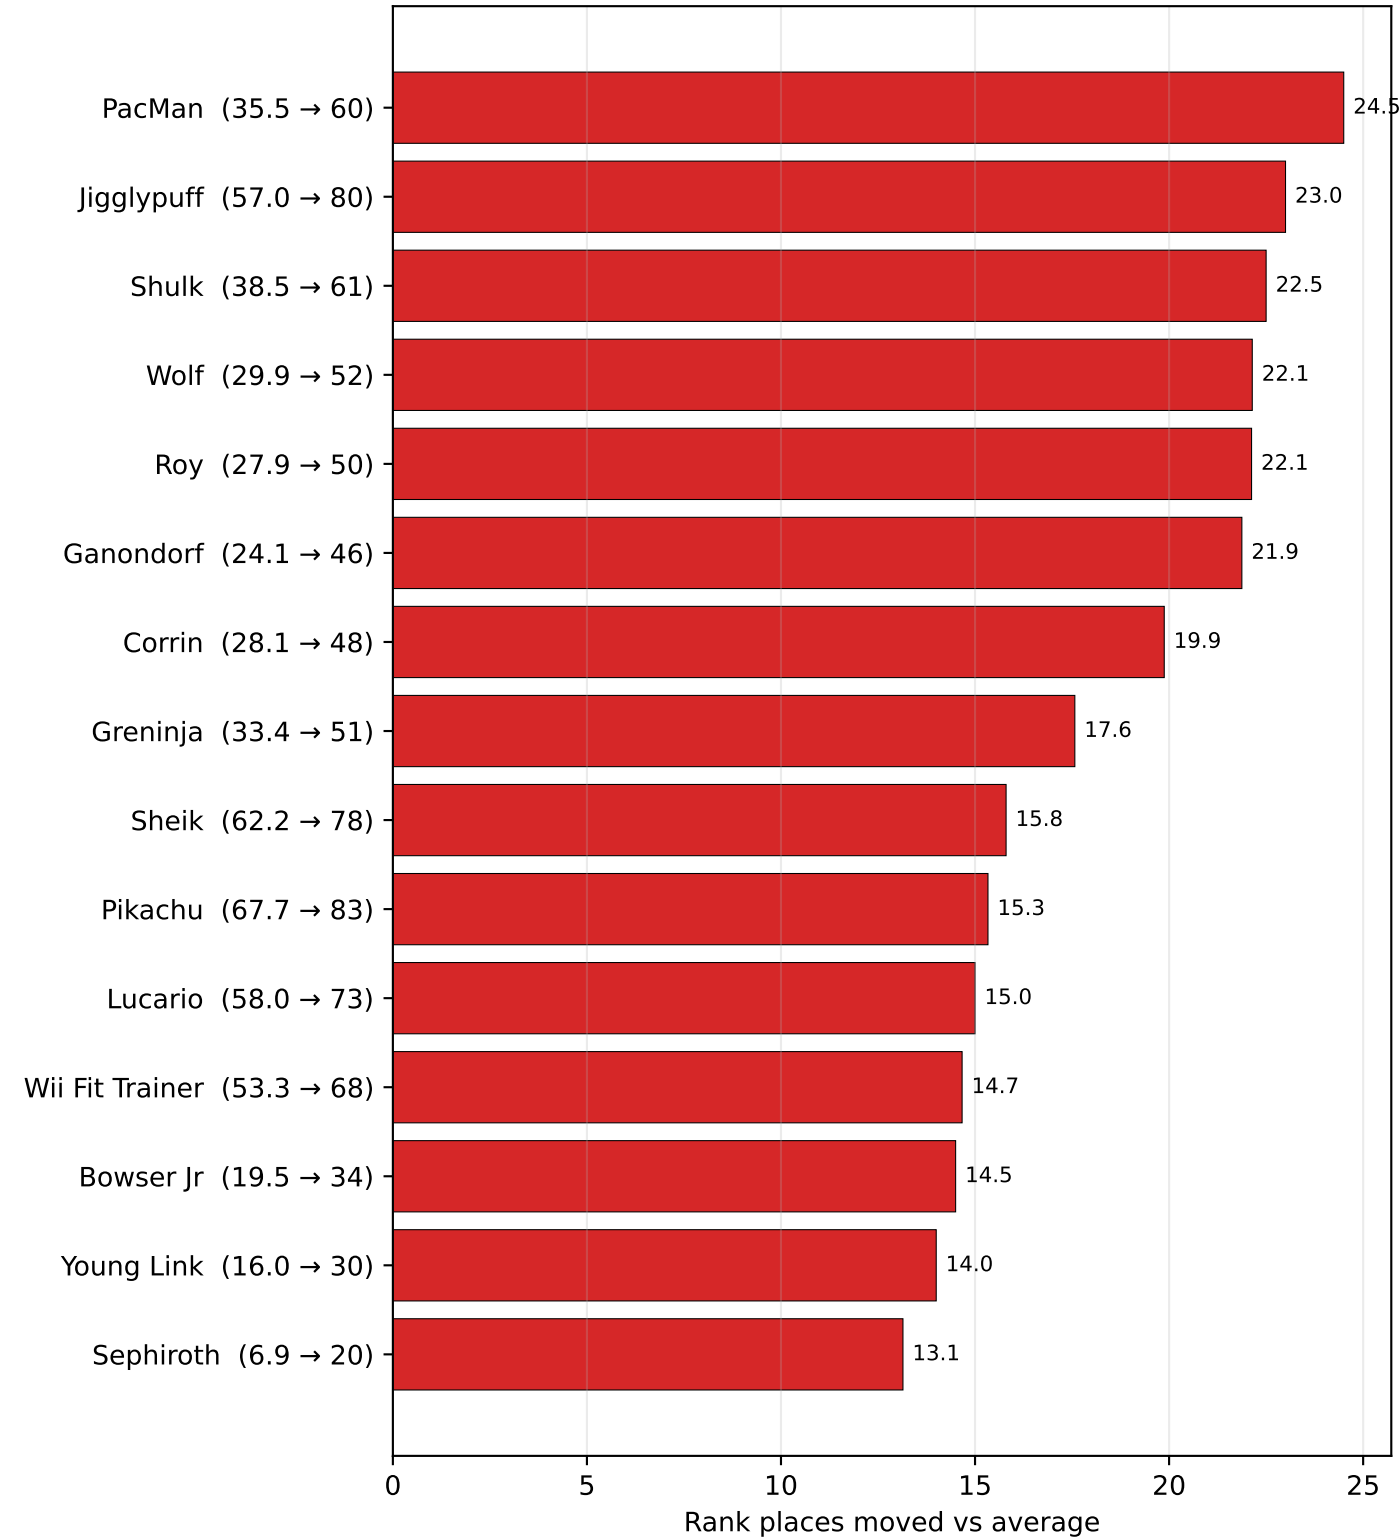

Averaged over the rounds each character actually competed in.

Career Average vs Current Standing

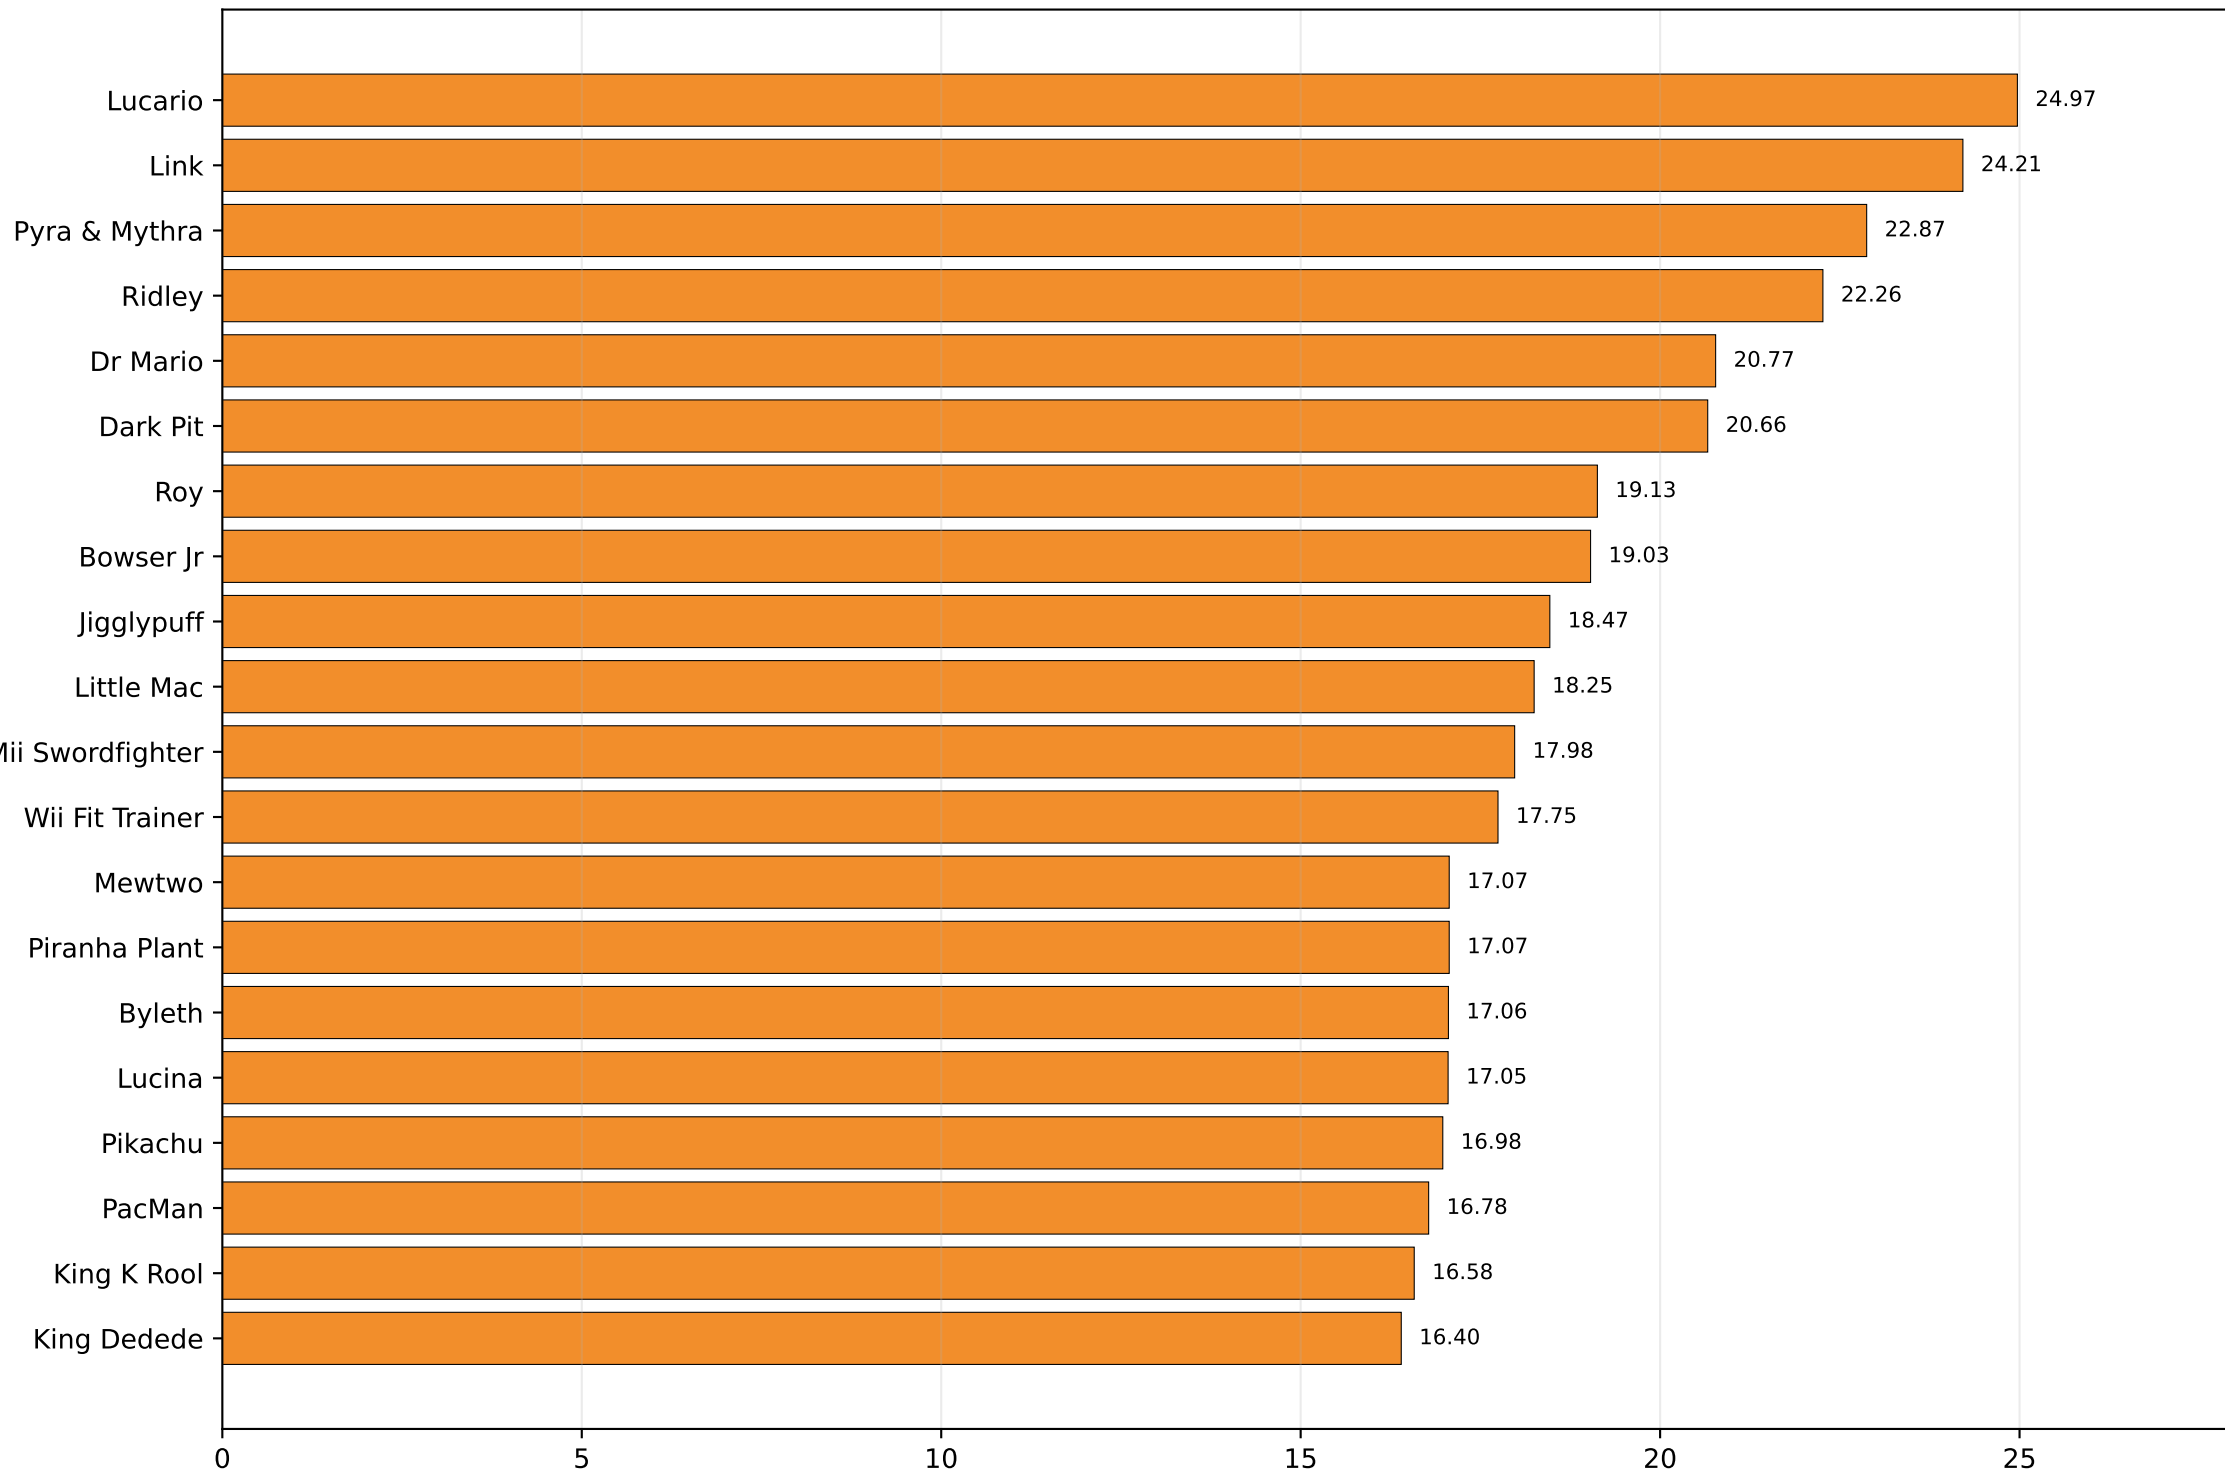

Peaking Now
(current rank far better than career average)

Fading
(current rank far worse than career average)

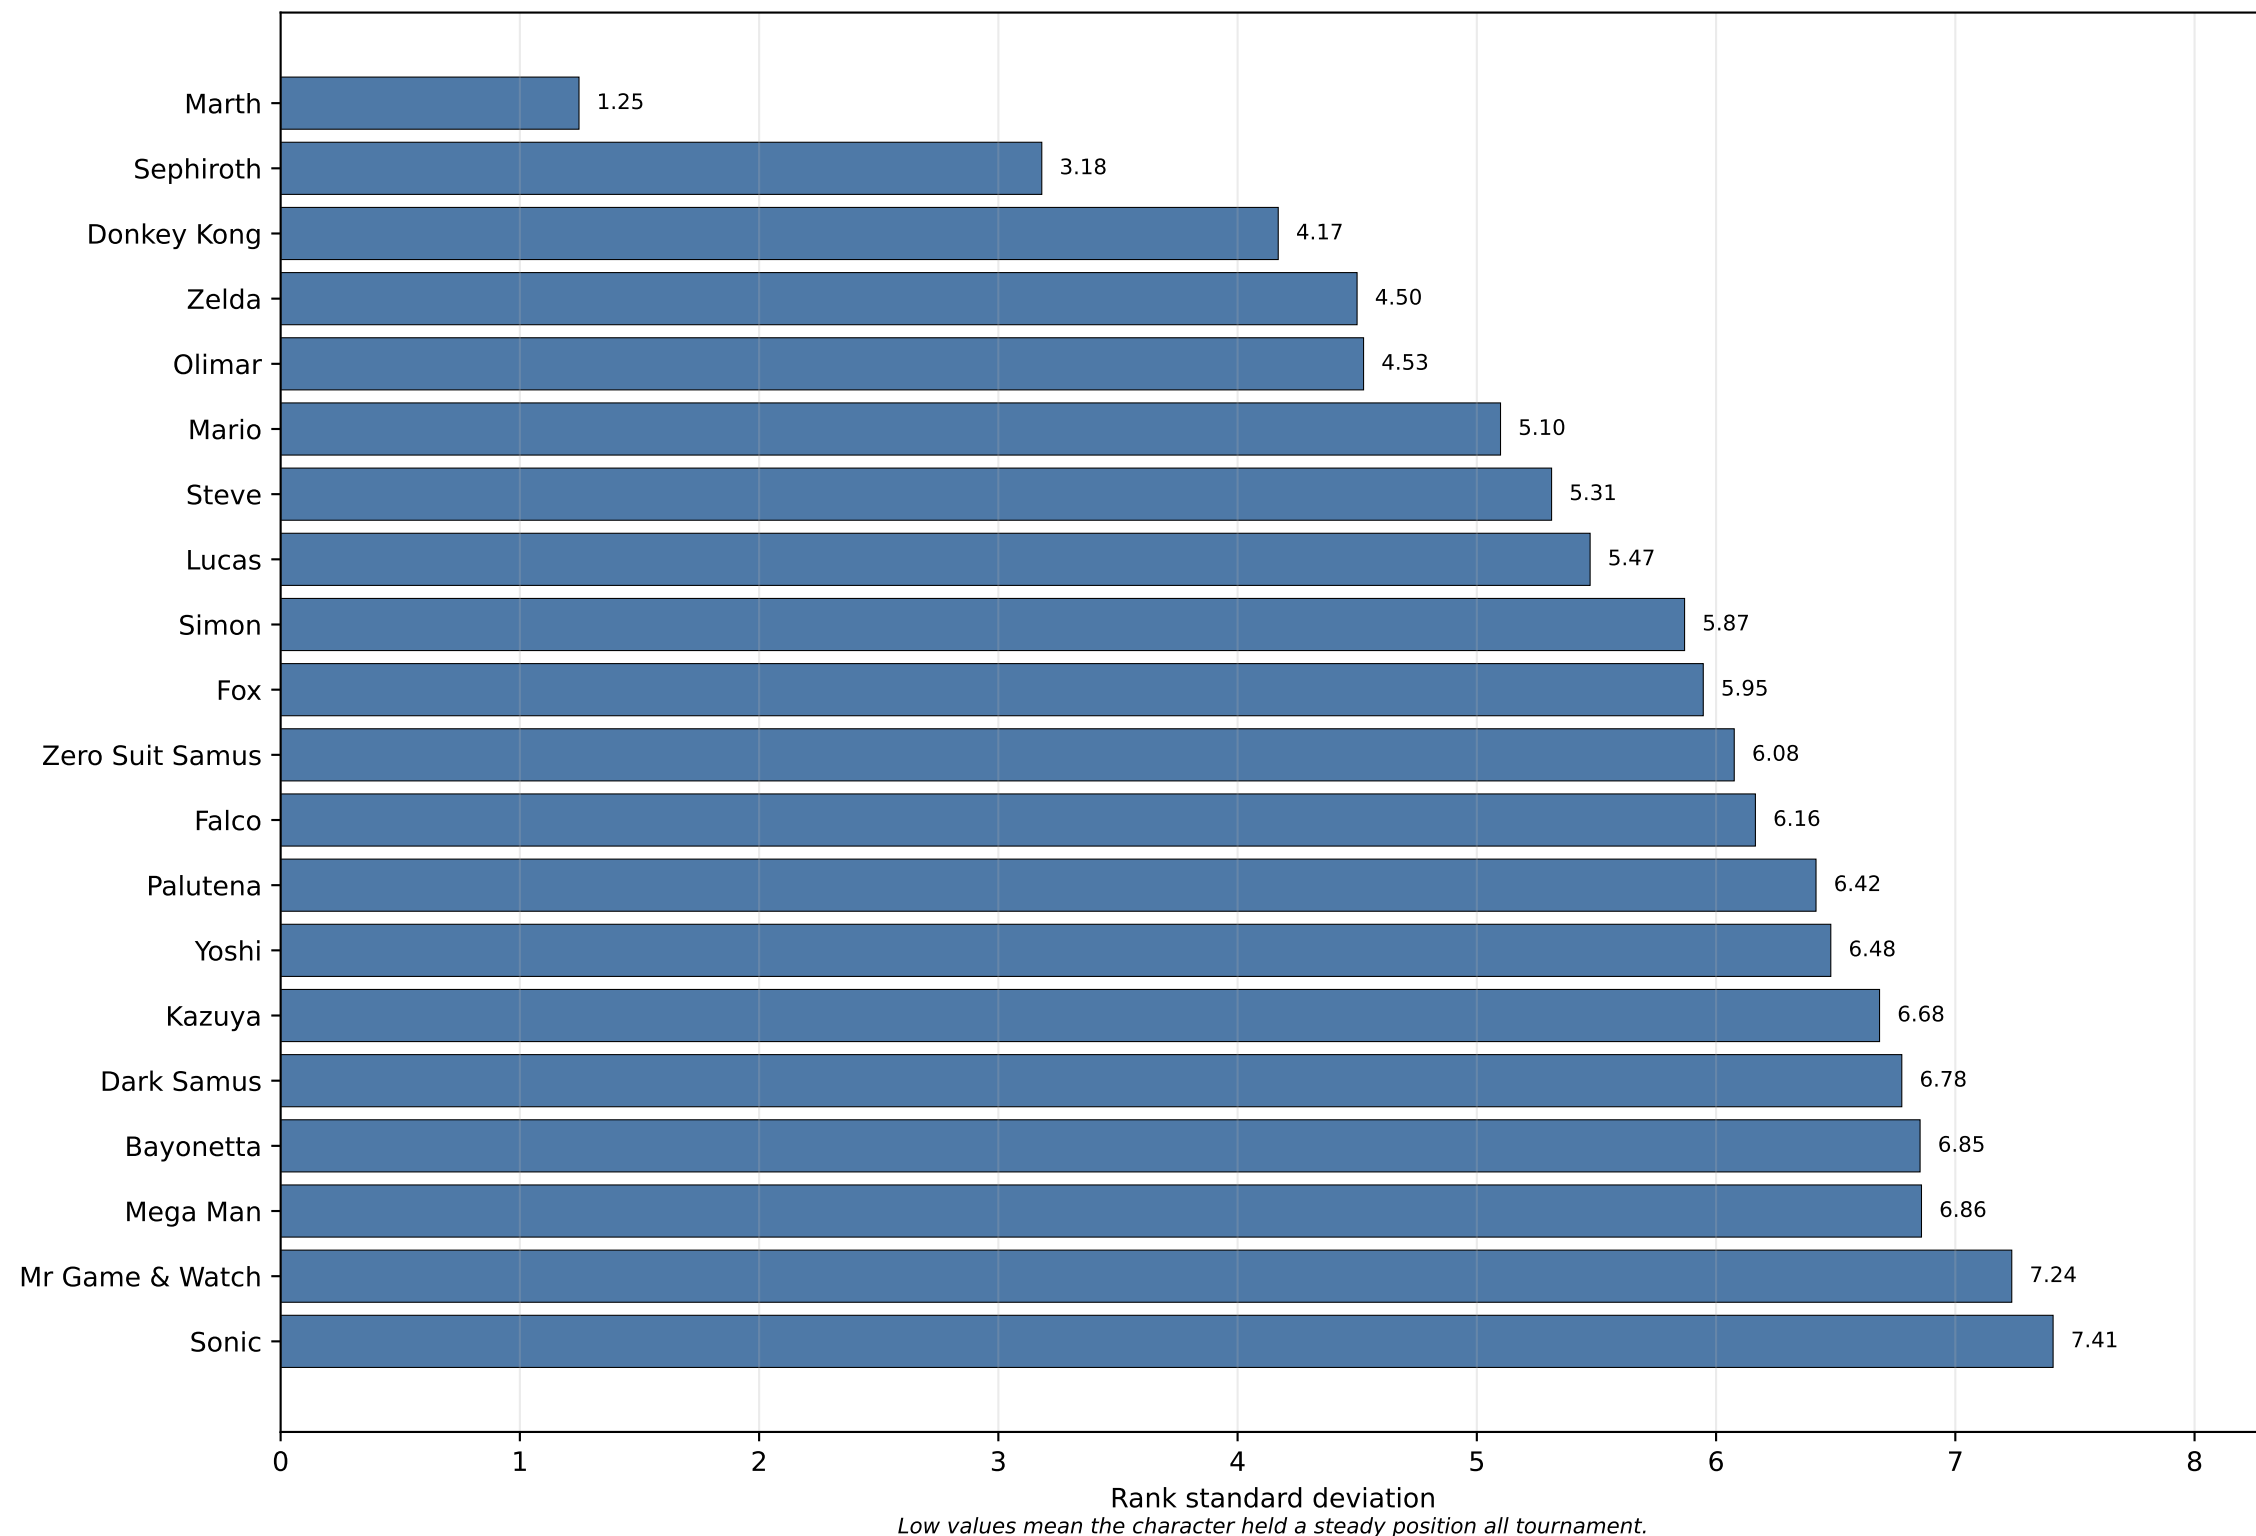

Most Volatile Careers — Standard Deviation of Rank

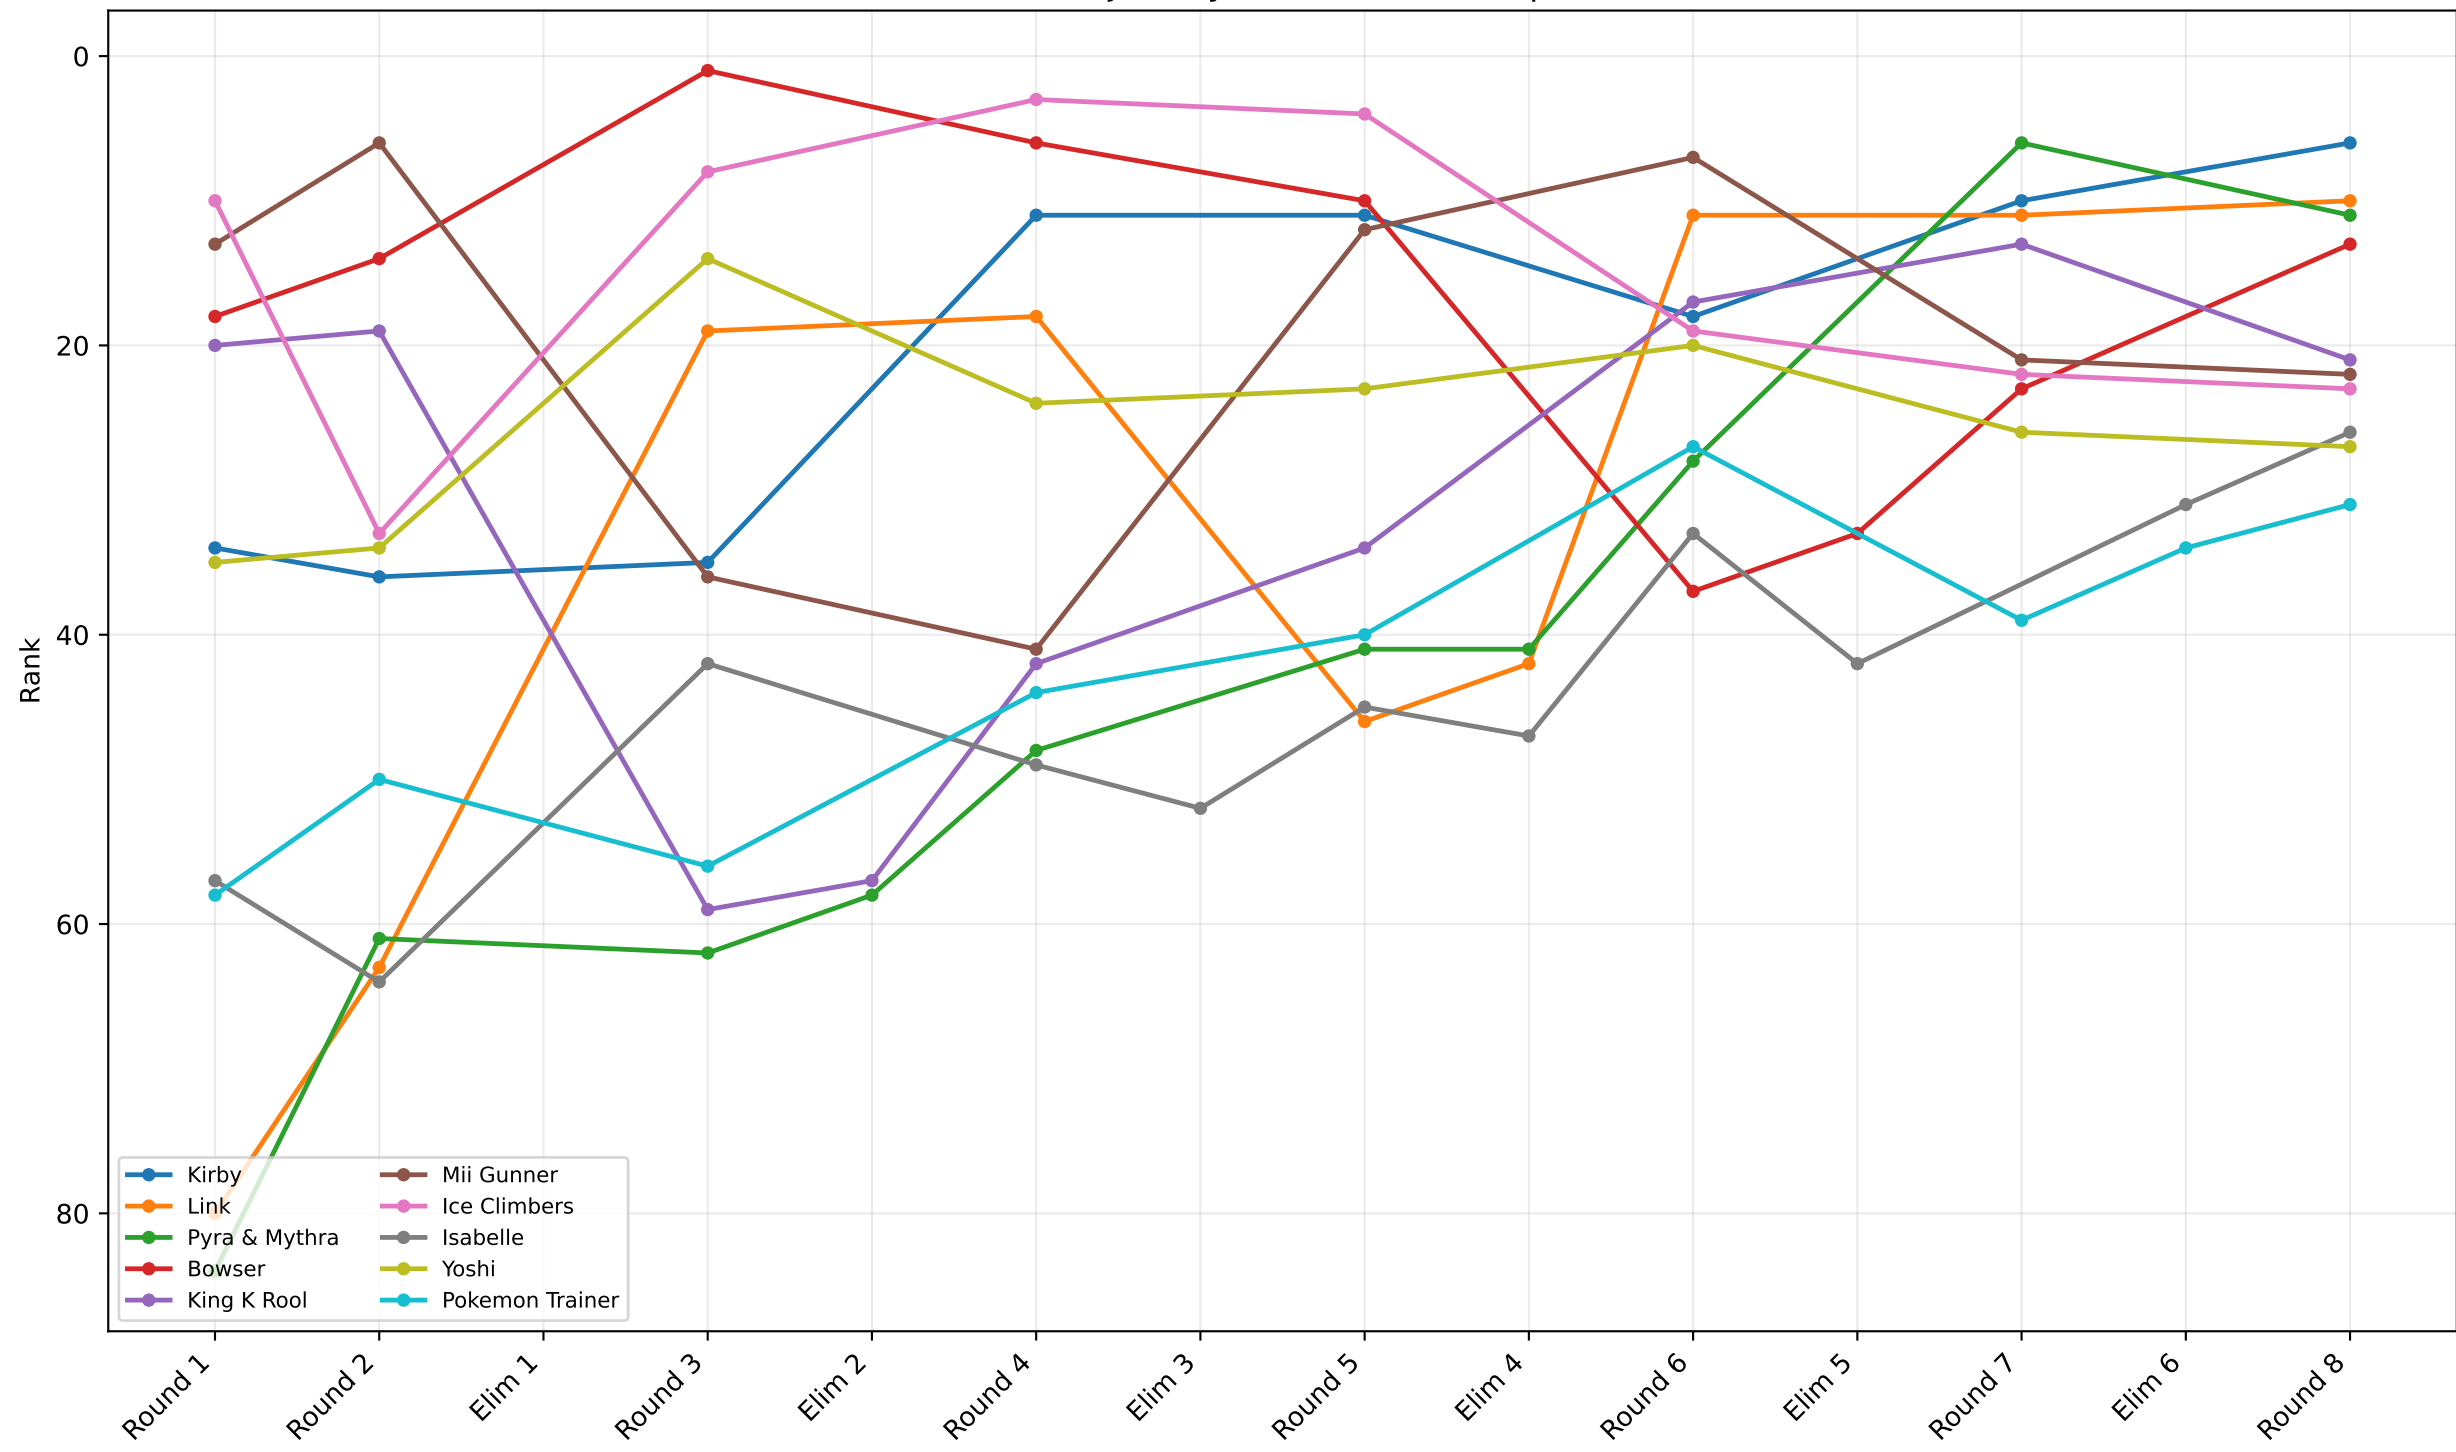

High values mean the character swung wildly between rounds. Minimum 3 rounds played.

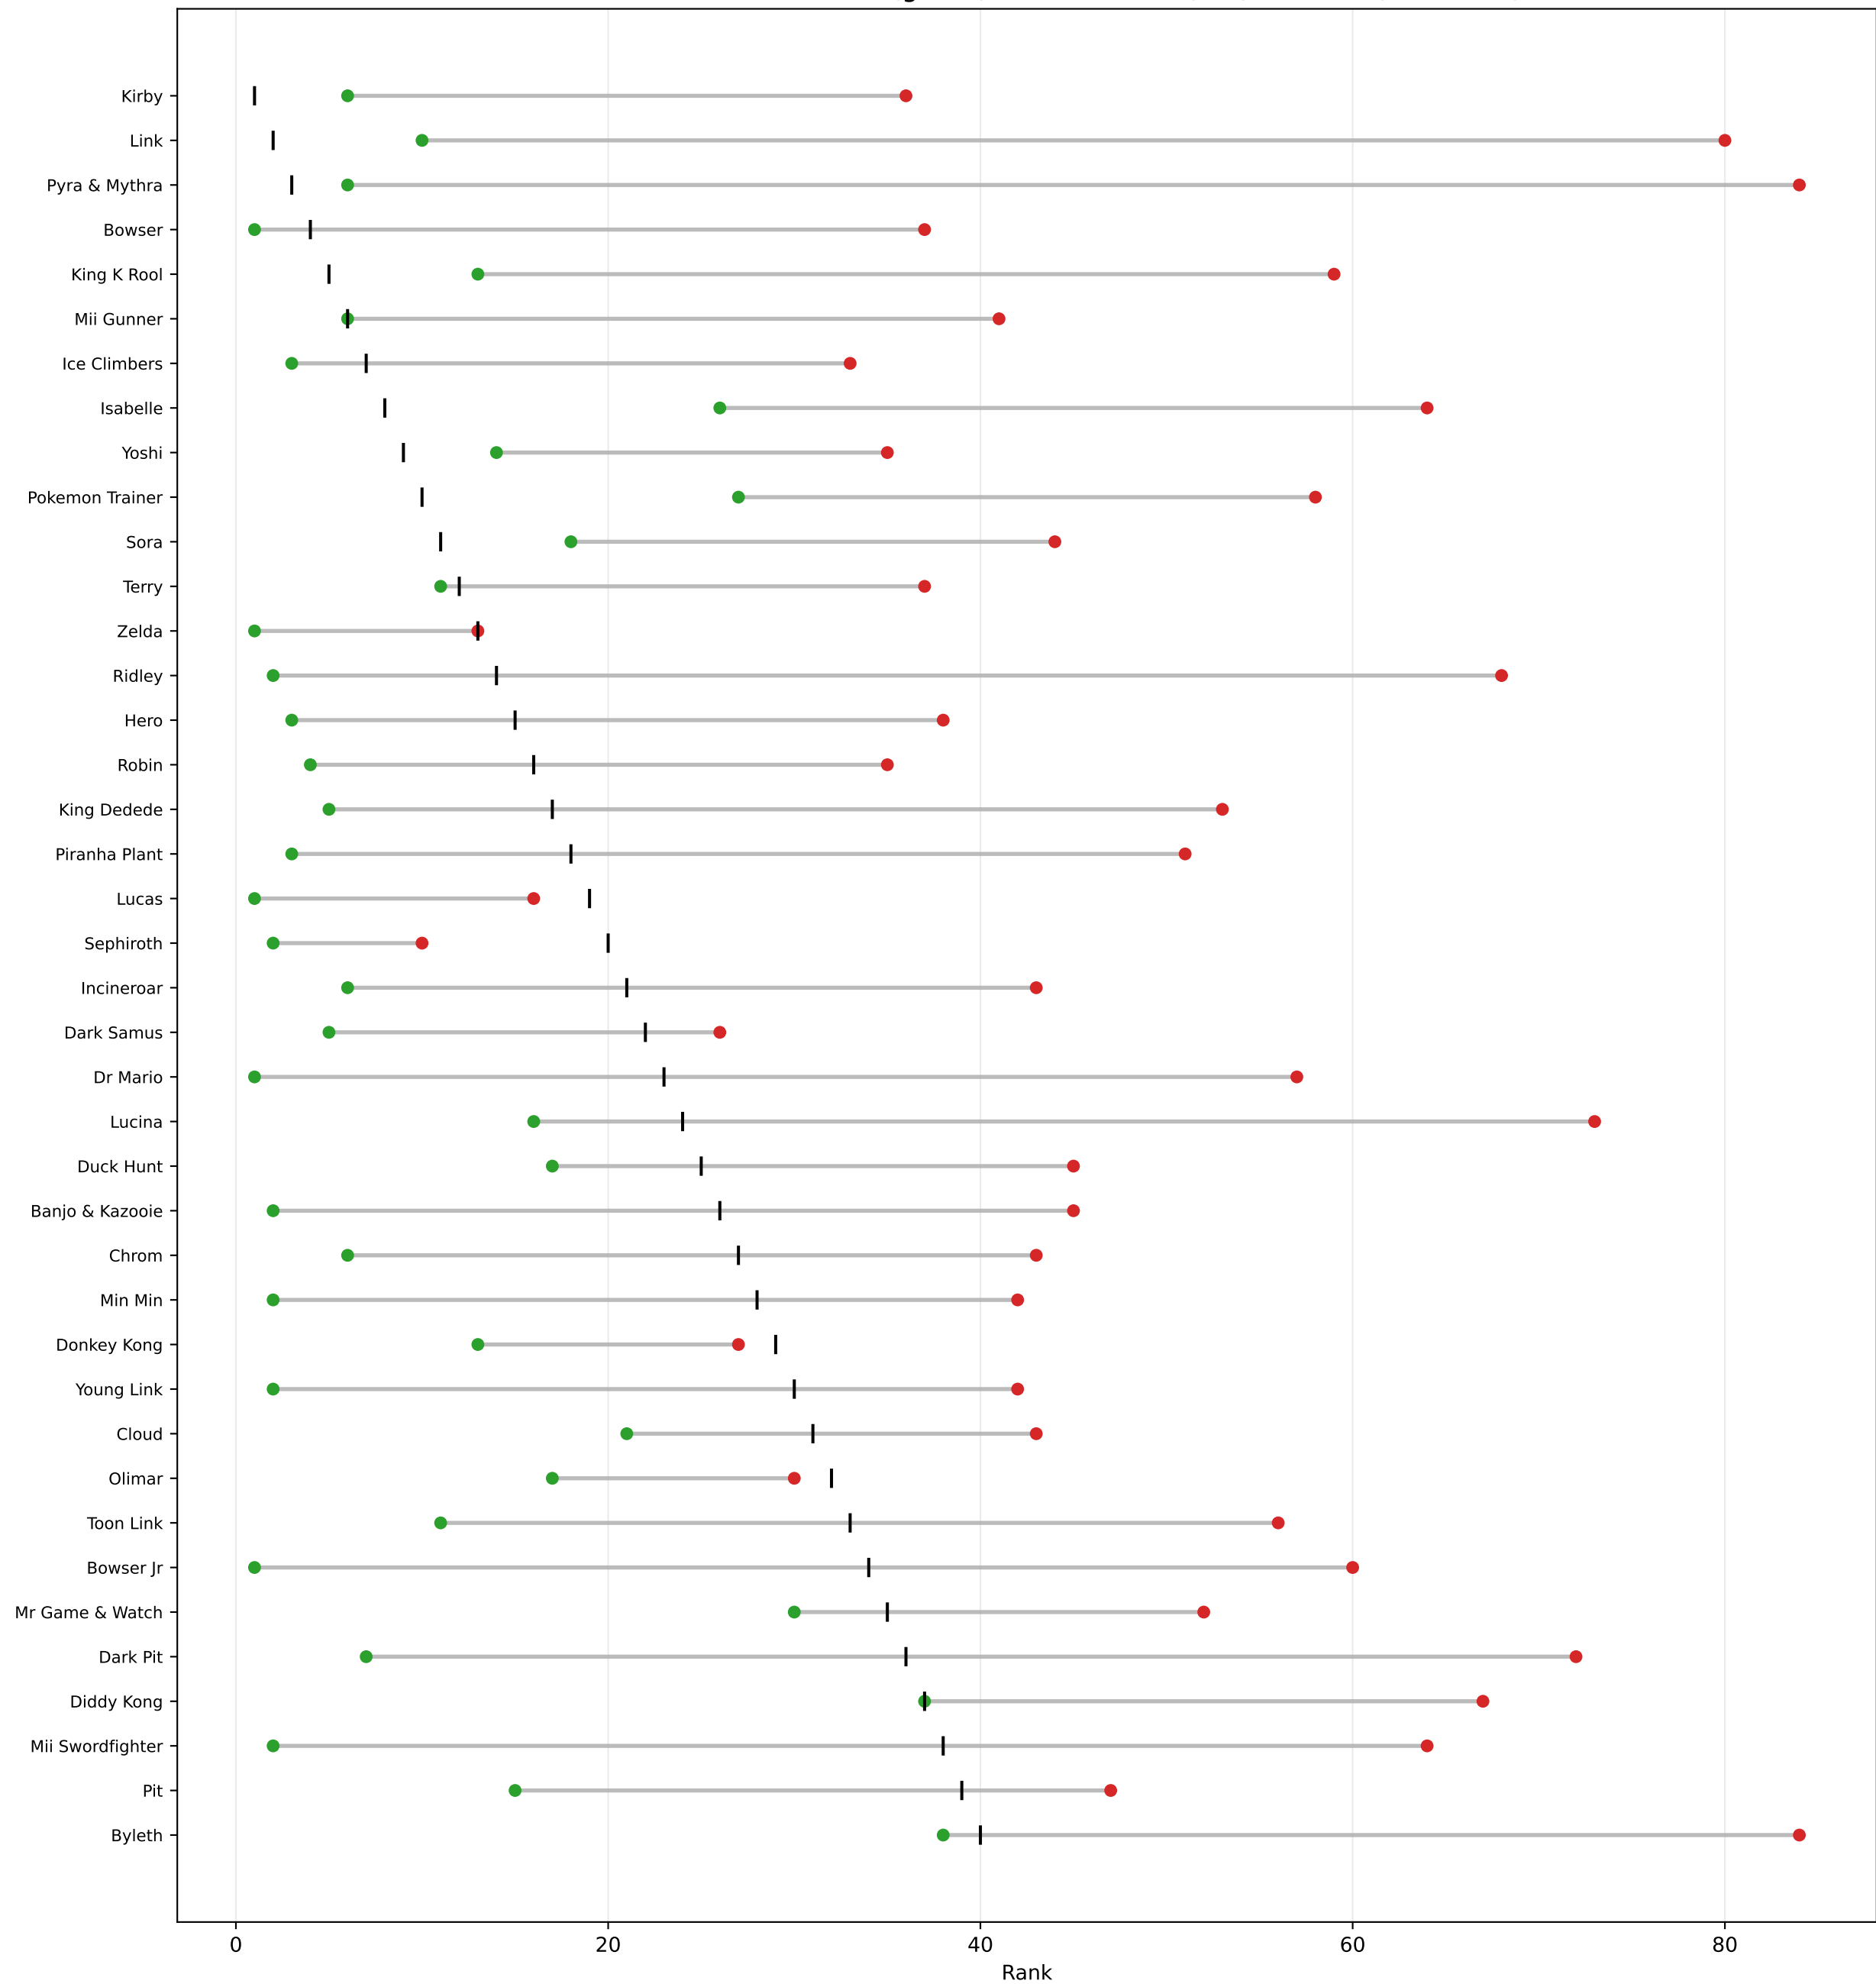

Most Consistent Careers — Standard Deviation of Rank

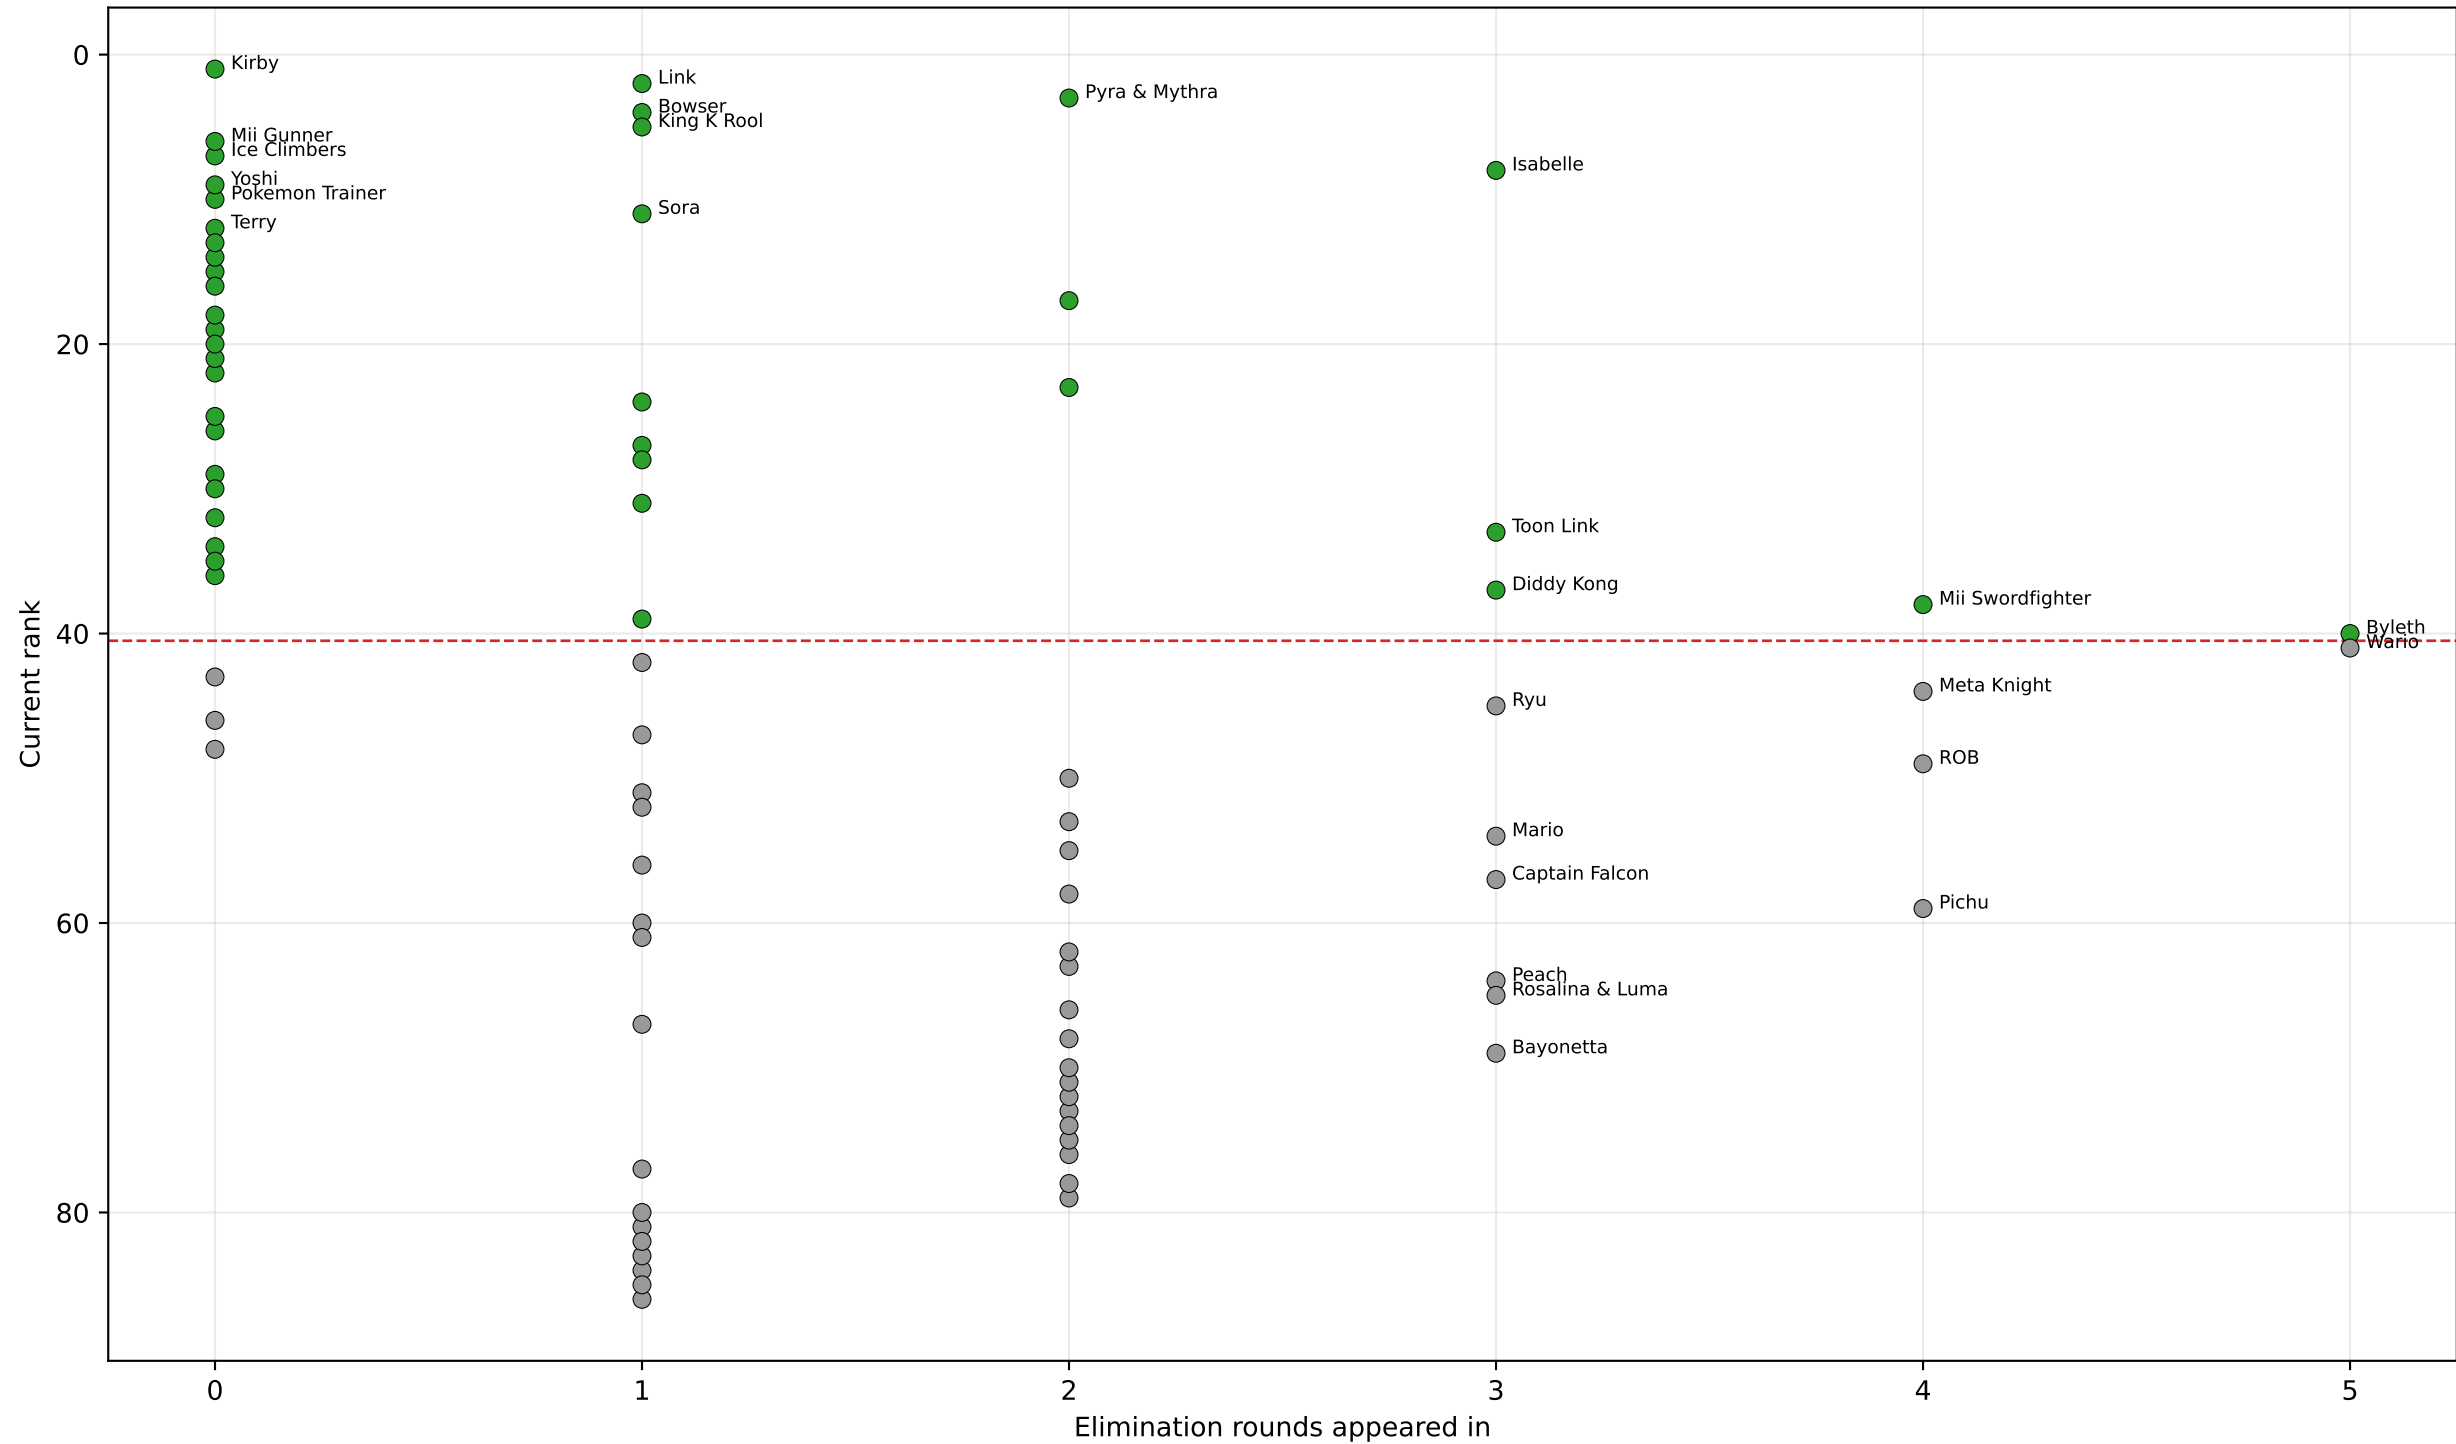

Rank Trajectory of the Current Top 10

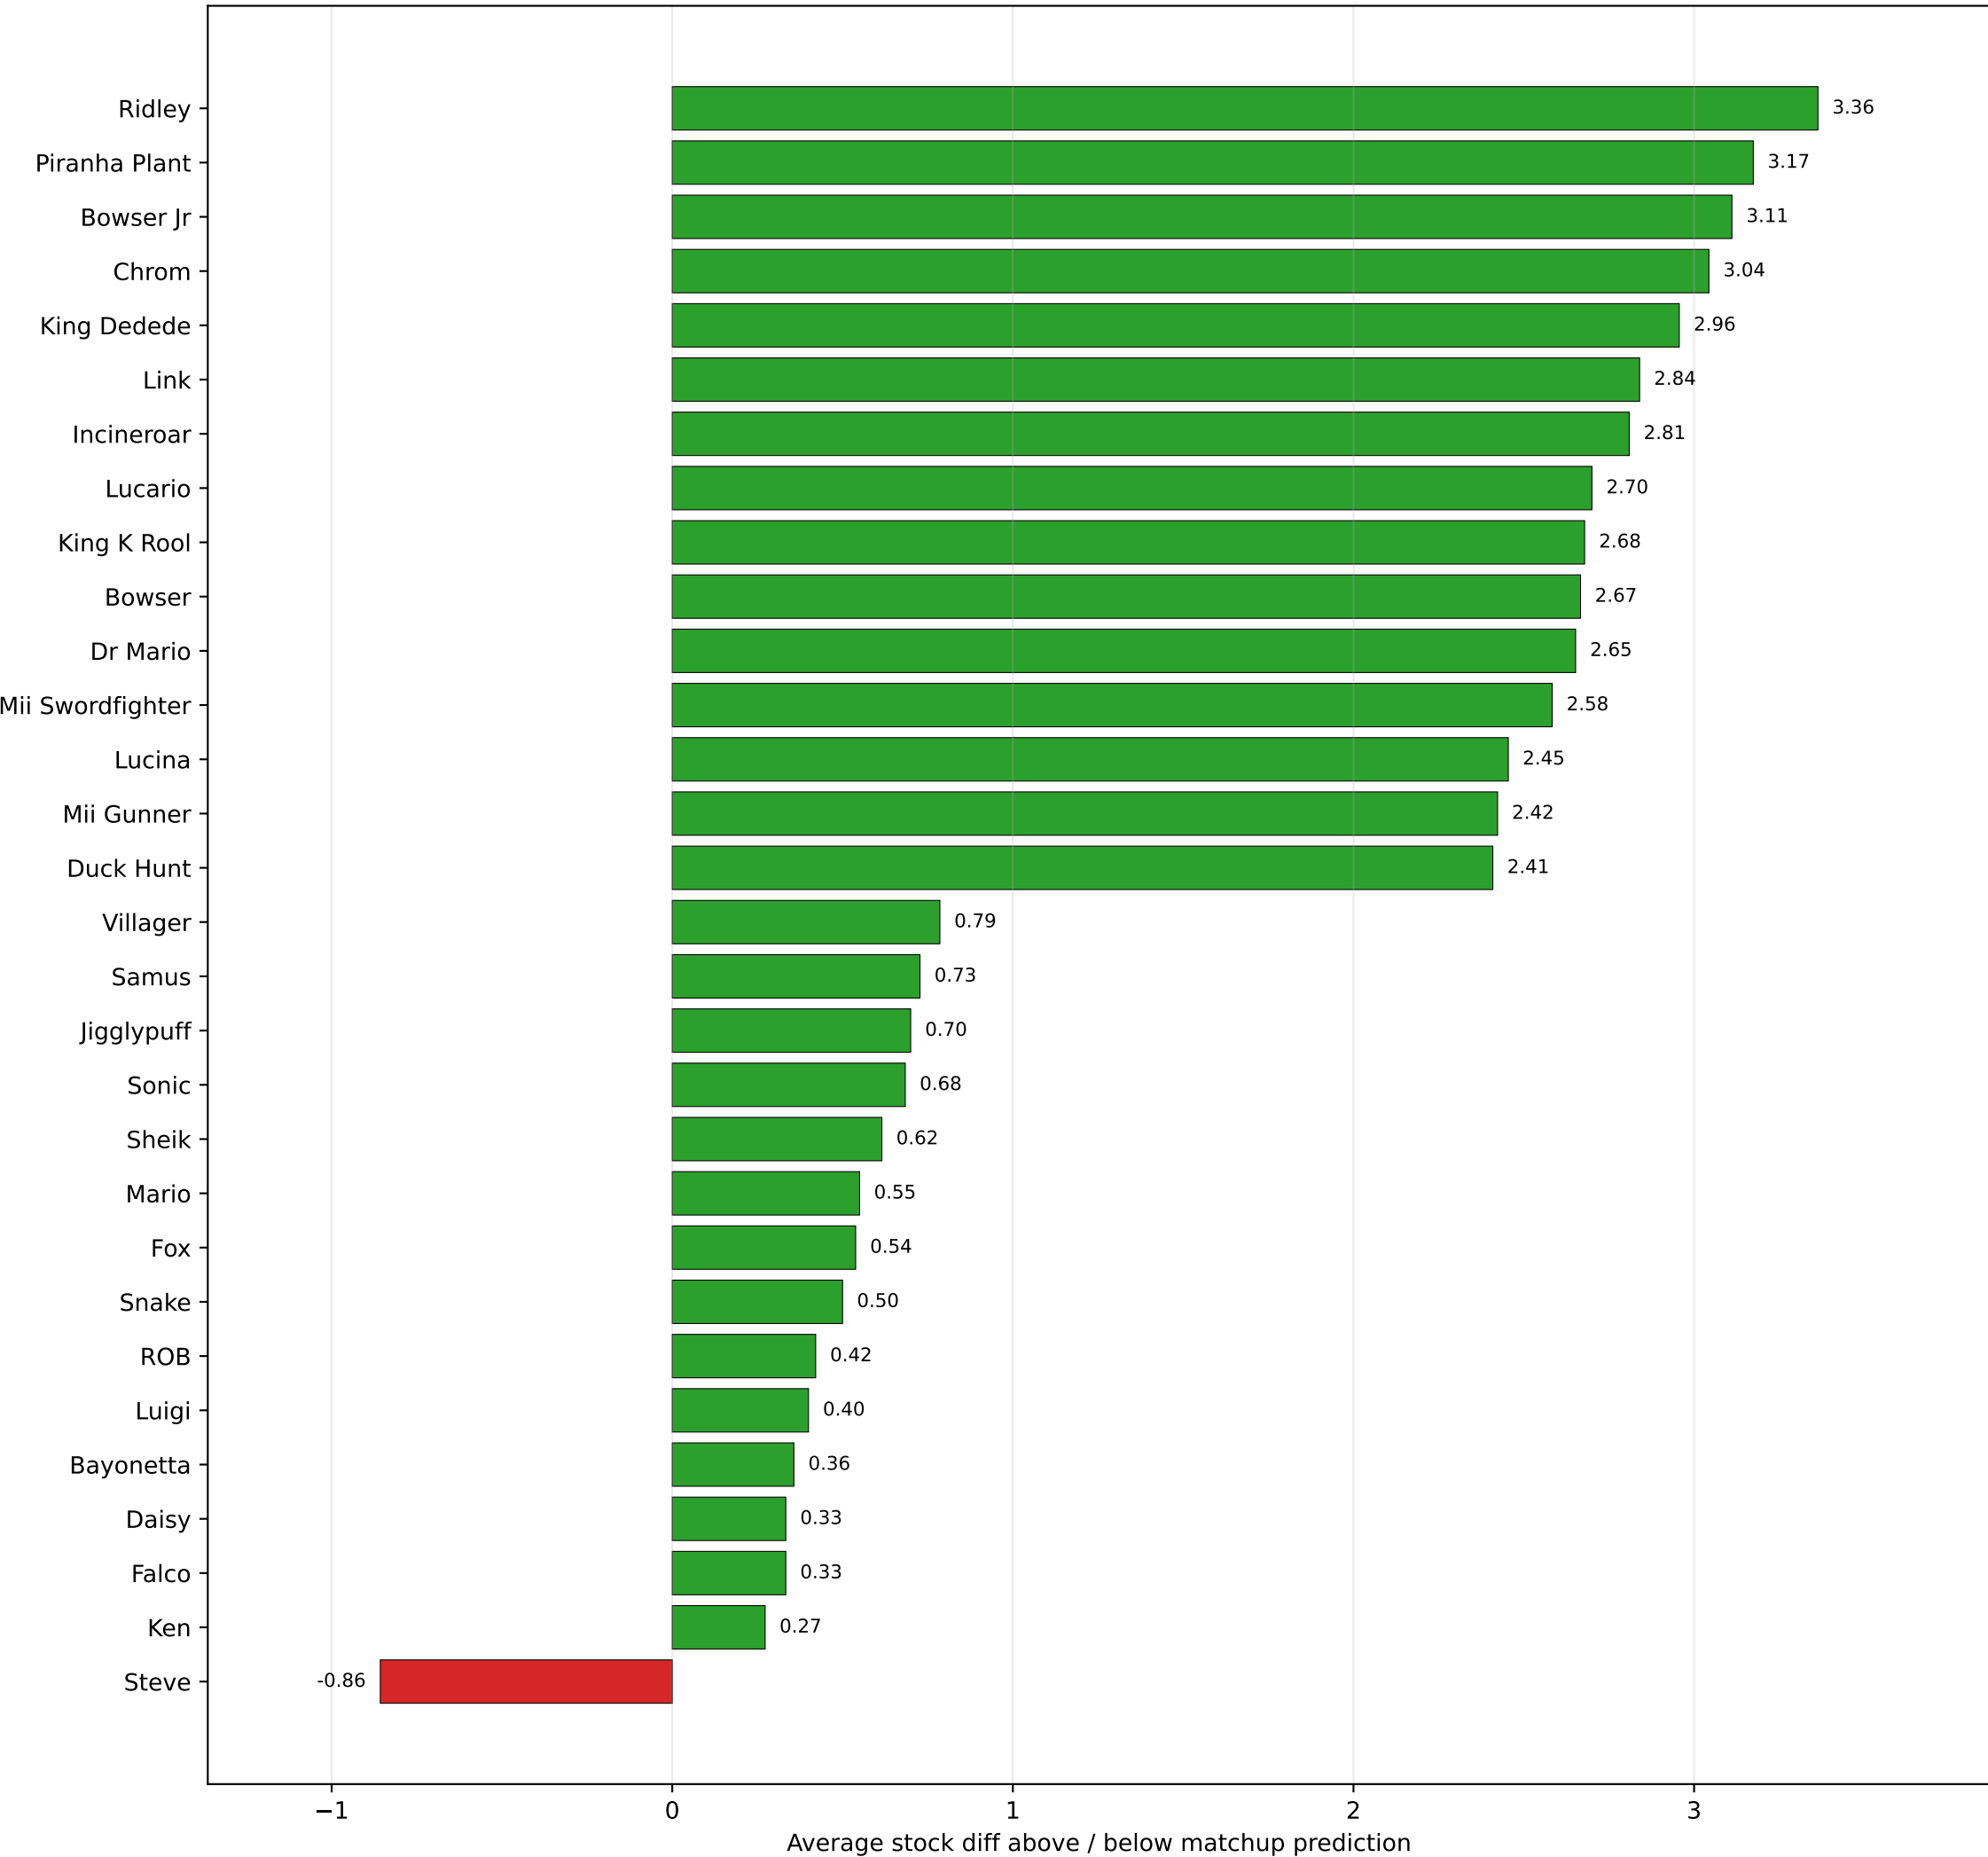

Round 7 Field: Career Best (green), Career Worst (red), Current (black tick)

Elimination Appearances vs Current Standing

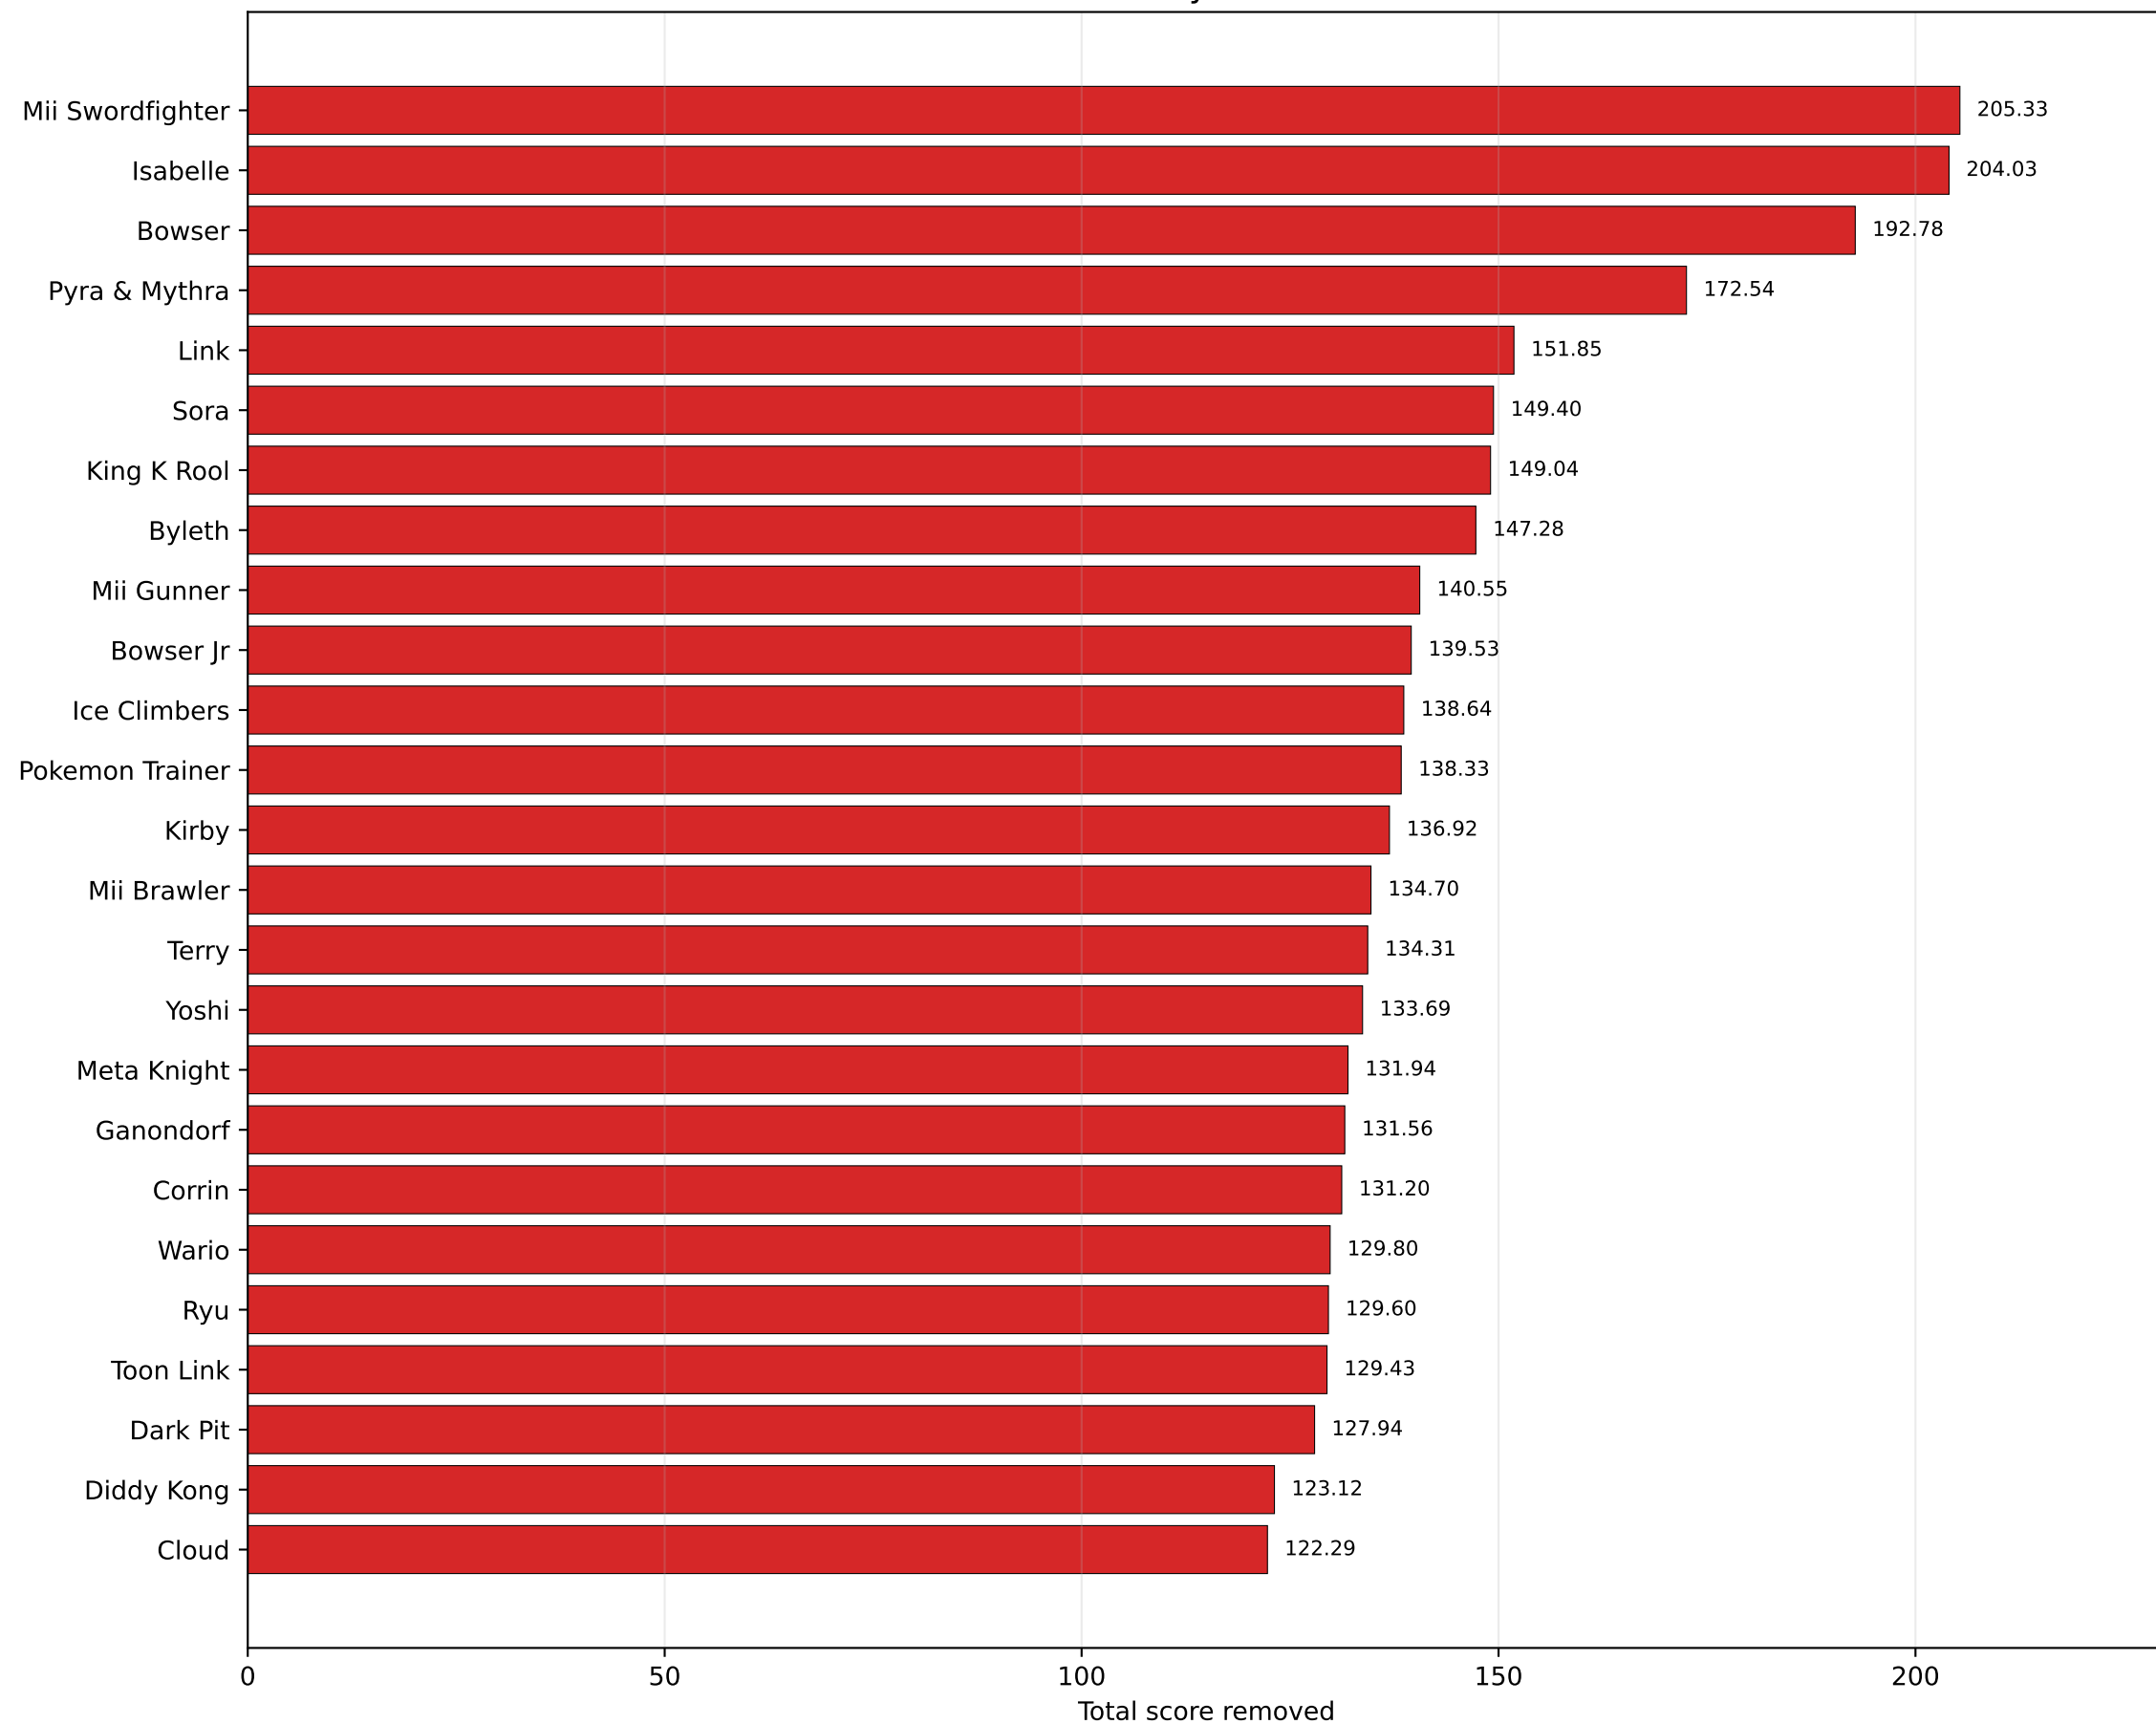

Matchup Chart: Biggest Over- and Under-Performers

Minimum 6 matches played. Positive means the character beat what the matchup chart expected.

Most Score Removed by Inter-Round Reductions

Cumulative points stripped by every score-reduction step the character passed through.

Win Rate vs Scoring Output (green = still in the Round 7 field)
